

RESEALABLE MULTI-PLY LABEL

ABSTRACT OF THE DISCLOSURE

5 A resealable multi-ply label has a base ply having
an under side and an upper side and an amount of an
adhesive on the under side to attach the label to an
object of interest to be labeled, an upper ply having an
under side and an upper side wherein the upper side of
the base ply and the under side of the upper ply are
joined together along a hinge strip by an amount of a
10 permanent adhesive material thereby forming a permanent
hinge. The upper side of the base ply and the under side
of the upper ply are releasably, resealably joined along
at least a second edge spaced from the hinge strip using
a release-reseal system including layers of a release
15 material and a pressure sensitive adhesive such that the
plies can be separated and resealed.
